

Moulana Abul Kalam Ajad Teachers Training Institute

Bhedia, Purba Bardhaman

Laboratories

1. **Overview:** Our college Laboratories play a crucial role in the educational experience, especially in fields like science, psychology, and technology. We provide students with hands-on learning opportunities, allowing them to apply theoretical knowledge to practical situations. This experiential learning helps to deepen understanding, foster critical thinking, and develop problem-solving skills. Laboratories also encourage experimentation and innovation, giving students the freedom to explore and test their hypotheses in a controlled environment. This practical exposure is essential for building confidence and competence in their respective fields, ultimately preparing them for real-world challenges. Various labs are available in our college, such as Science Lab, Computer Lab, Math Lab, Language lab and Psychology Lab.
2. **Fine arts:** Fine arts encompass a wide range of artistic disciplines aimed at creating works primarily for their aesthetic value and emotional impact rather than for functional purposes. These disciplines include visual arts like painting, sculpture, and photography; performing arts such as theatre, dance, and music; and literary arts like poetry and prose. Visual Arts, Performing Arts and Literary Arts play a vital role of our college
1. **Additional Services:** we provide services such as study rooms, computer terminals, and library events.
2. **Photos and Videos:** Provide visuals of the library's interior, showcasing the various sections and resources.
